REF: POLICY 07

**Quality Policy: (std. ref. 5.2)**

PPP-Piping Systems Ltd is manufacturer and supplier of plastic pipes, fittings and related products, accessories and services established for over 40 years and recognised as market leader in Mauritius.

It is the policy of our organisation and our people to provide quality products and services in conformity to the requirements of our valued customers and the applicable international product standards as well the existing statutory and regulatory requirements.

We are committed to product standards compliance and to achieving a high level of corporate and personal integrity and excellence.

We endeavour to continually improve quality of our operation by delegating responsibility for quality to everyone in the organisation jointly and individually from the Chairman and Directors to Managers and operation staffs.

The specifications agreed with our customers are communicated to and followed by everyone in order to ensure that everybody's work obligation are completed right first time and every time and products are delivered to client always in time.

This policy has been defined by the Management of PPP-Piping Systems Ltd. and has been communicated, understood and implemented throughout the organisation.
